

COVID Response Service

‘Working with you to keep your children safe, supported and healthy if you are ill with COVID-19’

Planning ahead helps to keep your family safe and healthy. VACCA’s state-wide COVID Response Service can help you to develop a care plan for your family, in case you need to be hospitalised due to COVID-19.

What support can I get from VACCA’s COVID Response Service?

The VACCA COVID Response team will work with you to create a care plan, and help you find someone who will look after your child or children if you become sick. This might be other family or a friend.

We will support you by:

- ▶ Developing your care plan, and helping you to decide who your carer will be
- ▶ Assisting with transport, groceries, and other supports your child or family might need
- ▶ Providing referrals to other programs and services, if needed
- ▶ Planning alternative accommodation arrangements if you can’t identify a suitable carer, or if your situation changes
- ▶ Working with you to put your care plan in action if you become sick, so your family is safe while you get better

How do I access VACCA’s COVID Response Service?

VACCA is here for all our mob so even if you aren’t connected with us, we can still support you and your family. Call our team today to have a yarn about your family’s COVID Care Plan today.

Call 0448 930 509 Monday-Friday between 9am-5pm, or email covidcare@vacca.org

For after hours support Monday – Thursday call 0437 714 324
